

# Human-in-the-loop

Workflow :

1) Approval

2) Debugging

3) Editing

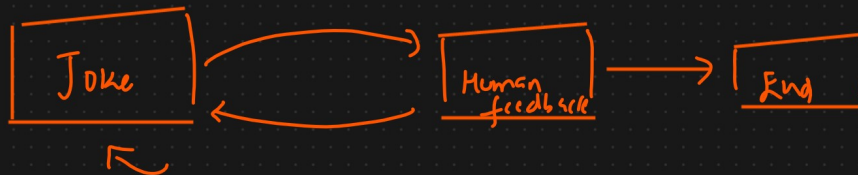

Data Analyst

① langchain → YTAPI ⇒ Transcript of YT video

↓

langgraph → Blog

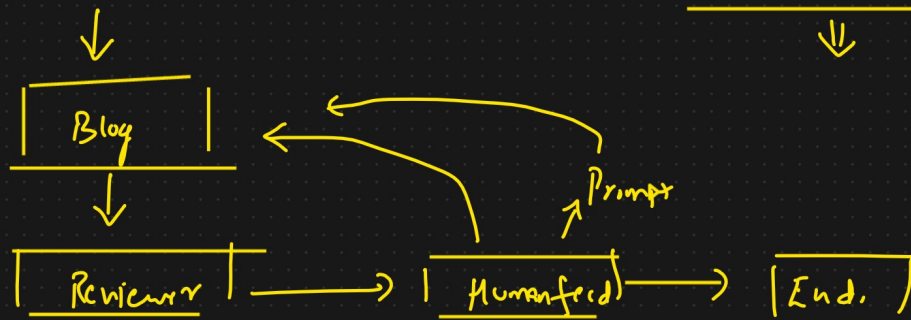

① Human Feedback

③ YT API → Transcript

ATS Resume Preparation

↓

it's my office POC

code convert from Java to Python, reviewer ,  
Human feedback , end

1. Generate 100 lines transcript from KT videos which lasts for 1 hours ( Understand the gist)
2. Ask for feedback from KT person
3. If yes end the loop

.
